## PROFILE SUMMARY.

**Professional Summary**
MCA graduate (2026) with a strong foundation in web development and backend programming. Skilled in PHP, MySQL, HTML, CSS, JavaScript, SQL, REST APIs, Git, and basic React.js. Passionate about developing secure, scalable web applications and eager to begin my career as a PHP Developer.

## EDUCATION

**C.ABDUL HAKEEM COLLEGE (ANNA UNIVERSITY),** *Master of Computer Application* 2024 – 2026
CGPA-8.5

**M.M.E.S(THIRUVALLUVAR UNIVERSITY),** *Bachelor of Mathematics* 2021 – 2024
CGPA-8.3

## SKILLS

**Programming Languages:**
Python, C, C++, SQL

**Tools & Software:**
MS Office, Git & GitHub, Vs code

**Web Technologies:**
HTML, Tailwind CSS, React Native, Node Js

**Libraries & Frameworks**
Numpy, pandas, Scikit-learn, Mathplotlib

## EXPERIENCE

**Aspire systems India Pvt Ltd,** *SHINE – Skill Enhancement & Employability Program*
Completed a 3-month industry-oriented IT training program focusing on Software Development, Python, SQL, and Data Structures & Algorithms (DSA). Developed problem-solving skills through hands-on projects, real-world scenarios, and technical interview preparation.

**Azero Tech,** *Software Intern*
Developing responsive and user-friendly web interfaces using React.js.Building reusable components and integrating frontend functionality to improve application performance and usability.

## CERTIFICATION

**NPTEL - MACHINE LEARNING**
Covered core machine learning concepts including regression, classification, clustering, and model evaluation using Python.

**CERTIFICATION- PYTHON**
Certified in Python programming with strong skills in data handling, logic building, and problem-solving.

## PROJECTS

**E-COMMERCE website using React native**
A polished, production-ready mobile ecommerce app built with React Native, Expo, Redux Toolkit, NativeWind (Tailwind CSS), and TypeScript.

**PARKINSON'S DISEASE PREDICTION using Hybrid ML Models**
Built a Parkinson's Disease prediction web application using Python and Machine Learning, enabling voice-based disease prediction.Applied voice data preprocessing, feature extraction, and feature selection techniques to improve model performance.
